Michelle Singletary - The Washington Post

Our color analysts have divided all six billion of us into 5 colors: Green, Blue, Yellow, Grey and Red. Our attitude towards money (i.e our color) can affect how much of it we actually have or don't have. For instance the 'green' will most likely be rich because he/she takes more risks than the average person...

Rick Ross- Color Money (Fast)

Green is the color of growth and the southeast wealth sector. Black is the color of water, and that is the color of wealth in feng shui. When you want to stimulate business or personal growth, wear black and green colors, such as a black suit with a green shirt, or this green pi yao necklace .

Good Luck Objects and Colors Bring Prosperity, Abundance ...

Pink is the color that makes money grow up, especially that makes the money to realize your dream or your aim grow up. In addition, it improves human relation and is an essential color improving the luck of love, and if a woman wears a pink thing or has pink belongings, your luck of love will increase.
