Competing by Design: The Power of Organizational Architecture

If the defining goal of modern-day business can be isolated to just one item, it would be the search for competitive advantage. And, as everyone in business knows, it's a lot harder than it used to be.

Competing by Design: The Power of Organizational Architecture, is their guide to reaching that goal through total integration of corporate structure, workplace culture, and employee motivation. Bringing all such processes together into one unified organization, they contend, is as important to a company's future as the architectural unity of the building that houses it.
