authors of 'Computational Physics', Nick Giordano and Hisao Nakanishi from the Department of Physics at Purdue must be first on the list. I would like to thank both of them sincerely for their interest, hospitality and many useful discussions while I was at Purdue.

[Computational Physics: An Introduction to Monte Carlo ...](#)

1.2.1 What is computational physics? Computational physics is a new way of doing physics research, next to experiment and theory. Traditionally, the experimentalist has performed measurements on real physical systems and the theoretical physicist has explained these measurements with his theories.

Computational Physics, 2nd Ed., Solutions of Selected ...

Nicholas Giordano obtained his B.S. at Purdue University and his Ph.D. at Yale University. He has been on the faculty at Purdue since 1979, served as an Assistant Dean of Science from 2000-2003, and is currently the Hubert James Distinguished Professor of Physics.

Giordano & Nakanishi, Computational Physics, 2nd Edition ...

Ideas for this book grew out of the course on computational physics that he developed and taught in the early 1990s. Professor Giordano earned a Computational Science Education Award from the Department of Energy in 1997, and in 2004 was named Indiana Professor of the Year by the Carnegie Foundation for the Advancement of Teaching and the ...

Computational Physics using MATLAB (Version 2) Dr. Berwick has also put together a video showcasing some of his programs on the book material, including movies of the wave functions for two-dimensional, time-dependent Schrödinger Equation: Computational Physics Video. Some general comments

Computational Physics - Exercises

Ø Widely used language in computational science - also widely used in finance, engineering, etc. Ø Many “canned” subroutines available (often Fortran 77) Ø Relatively easy to learn Fortran 90 compilers Ø Many commercial compilers available; often expensive - f90 available on buphy (Physics Dept. server)

Introduction to Computational Physics - ETH Z

Exercises. This page contains downloadable files of the full exercises from each chapter of the book Computational Physics by Mark Newman. There is a single zip file for each chapter containing the exercises in LaTeX format, along with figures and an example PDF file.
