Concept-Development 29-3 Practice Page (The blue ray bends more than green both in the glass and when it emerges.) (Relate the change in direction of the wheels to that of light when it changes speed.)

Concept-Development 29-2 Practice Page

Concept-Development 4-2 Practice Page Hang Time Some athletes and dancers have great jumping ability. When leaping, they seem to momentarily “hang in the air” and defy gravity. The time that a jumper is airborne with feet off the ground is called hang time. Ask your friends to estimate the hang time of the great jumpers.

Conceptual Physics Concept Development Practice Page 30 2 ...

Comparing the concepts of mass and weight, one is basic—fundamental— depending only on the internal makeup of an object and the number and kind of atoms that compose it. The concept that is fundamental is (mass) (weight). The concept that additionally depends on location in a gravitational field is (mass) (weight).
