The King of Copper Red Glazes - Marian Williams Pottery  
Copper red in glazed ceramics is a wonderful color searched out by generations of ceramists, often obtained, never well controlled, never seriously analyzed under a

Copper Red Glaze - Joel Cherrico Pottery  
Red Copper (Cu) glazes are distinctive and have been highly prized in history - everyone's heard about the Chinese guy who died taking the "secret" to the grave with him, leaving the Emperor quite disgruntled. Cu red glazes are based on adding Cu into the glaze as an oxide and then exposing it to a reducing firing.

Copper Red Glazes - digitalfire.com  
"Copper Red Glazes" by Robert Tichane is the best resource I've found for Copper Reds. If you want to learn about reds I say read it, then read it again. He suggested that any base glaze can be adapted to a Copper Red glaze by adding 2% Copper Carbonate and 3% Tin Oxide and then firing in a reduction atmosphere.

Copper Red - digitalfire.com  
Most cone 10 copper red glazes contain less than 1% copper, and the color appears when the copper aggregates in colloidal suspension in the glaze melt, and the chances of copper leaching into food are so small that I cannot imagine any danger at all.

Get the glaze recipe for Blue Green/Copper Red Glaze, Cone 6 Oxidation or Reduction

Copper Red Glazes: Robert Tichane: 9780873416634: Amazon ...  
The second part about copper reds in reduction is that improper reduction will cause a great vibrant copper red to go muddy. If you have a beautiful copper red you have proper reduction. The white streaks are where oxygen has killed the reduction and the copper red, so only partial reduction is taking place in the kiln. Hope this helps. Wyndham

Chemically Reduced Copper Reds In Oxidation

glazes and that led to pursuing non-running Zinc Crystal glazes and now the elusive Copper Red Oxblood. Oxblood glazes are produced when copper is reduced of its oxygen during the firing and re-oxidised

Red Hot Reds: All You Need to Know to Make Beautiful Red ...  
Copper-red glazes. Glazes containing copper which turn red when fired in a reducing atmosphere. The earliest known copper-red glaze occurs on wares made in Shanxi during the Tang dynasty. Jun kilns of the Song dynasty commonly used copper glazes.

Chinese Porcelains Copper Red Peachbloom Glazes  
there are some glazes that long firings tend to favor, unfortunately copper red is not one of them. More often than not the color disspappears leaving a white with fleeting flecks of red.

Copper Red Glazes: The Elusive Bright Red Pottery - Joel ...  
I've had a love affair with copper red glazes ever since I started making pots. The first red piece I remember seeing was an old Chinese jar in the Portland (Oregon) Art Museum. Since that day it has almost become a ritual with me to fire a red pot, or at least put a couple of tests in every kiln load.
