ABSTRACT: The objective of this study is to model the development of critical thinking in groups of pupils aged 4 to 12 years. A previous study, conducted with groups of pupils aged 9 to 12 years who practiced Philosophy for Children (P4C), proposed a model that shows how critical thinking develops in these age groups.

~~Critical Thinking And The Adult Learner—SlideShare~~
Abstract The need to identify the role of critical thinking within teaching and learning is important in order to develop and improve the quality of education at all levels and for all learners.
