### Human Development Throughout the Life Span - Study.com

Welcome to life span, growth and development. This is the study of how and why people change or remain the same over time. This course is commonly referred to as the “womb to tomb” course because it is the story of our journeys from conception to death. Human development is the study of how we change over time.

In the United States the National Institute of Child Health and Human Development has recently also initiated a large prospective life-history study, the National Children's Study, examining the effects of the environment and genetics on the growth, development, and health of children with more than 100,000 children who will be followed up from conception to age 21 years .

### Child health and human development over the lifespan

Lifespan development explores how we change and grow from conception to death. This field of psychology is studied by developmental psychologists. They view development as a lifelong process that can be studied scientifically across three developmental domains: physical, cognitive development, and psychosocial.

### Development through the Life Span Chapter 4 study guide ...

It is an old saying that the only thing that remains the same is change. Changes are always occurring through the course of a person’s life. From the point of conception changes begin to occur and they continue through the moment of death. Lifespan development is the name psychologists have given to the physical and cognitive changes that occur throughout a person’s life (Boyd & Bee, 2009).

### The Study Guide for Developing Person Through the Life Span

Development Through the Lifespan, Seventh Edition is also available via Revel™, an interactive digital learning environment that is a less expensive alternative to the print textbook, enabling students to read, practice, and study in one continuous experience. Revel’s new mobile app lets students access and interact with their text anywhere, anytime, on any device, giving students the flexibility of toggling between their phone, tablet, and laptop as they move through their day.
