Dioramas that depict ecosystems can make good and easy science fair projects. Here are some simple steps to make a grassland ecosystem diorama. 1. Sketch a diagram of the kind of diorama you plan to make. It will work as a guideline. Make sure you include all elements of a grassland in it. 2. Use a shoe box, or a file box to make the model.

A Simple Guide on How to Make a Grassland Ecosystem Diorama

All requirements are given in the shoebox diorama rubric. Students must include the name and location(s) of the habitat somewhere on the outside of the shoebox. Highlighting locations on a world map is a good idea. The inside of the shoebox must be decorated to match the natural habitat. There must be at least 3 different types of animals in the diorama that are clearly labelled.
