Disastrous Decisions: The Human and Organisational Causes ...

Most disasters are caused by human error—meaning wrong decisions. As drillers work and make decisions in teams, their interactions are obviously crucial, and ‘Group think’ or diffused responsibility can be fatal. Quote from Chapter 12: ‘Single point accountability for decisions needs to be a social reality, not just a legal formula.

...

This question, why societies make disastrous decisions and destroy themselves, is one that not only surprised my UCLA undergraduates, but also astonishes professional historians studying collapses of past societies. The most cited book on the subject of the collapse of societies is by the historian, Joseph Tainter.
