DStv Switch (5-1) User Guide. DStv Switch (5-2) User Guide. DStv Explora FAQs. What is the recommended installation for a DStv Explora? The recommended installation is an 80cm satellite dish with a DStv Smart LNB.

Technical info - DStv Community Forum

The 5.1 switch will only support 2 Explora decoders if they are of the same model ,eg Explora 2A and another Explora 2A. The original Explora and an Explora 2A model can not work together on the 5.1 or 5.2 switches as they recieve the Catch up content from different polarties and cannot share userbands.

switch and the DStv Switch (5-1) / DStv Switch (5-2)? The 5-1 and 5-2 switches were designed for use in individual installations (where people have their own dishes we call these Single Unit Dwellings, or SUDs) whereas the DStv Switch (24-1Z) has been designed for use in existing installations in complexes or ...

Dstv User Manual - WordPress.com

Okay so the "multi switch" you have is assumed to be the 24-1Z. This means the Explora 2A and the HD decoder (5 series) MUST be connected to unicable ports (A through D) on the DStv switch 24-1Z. The single view 5 series decoders cannot be connected to the universal ports 1 through 4. The HB signal is only available on the Uicable ports.

DStv SWITCH USER GUIDE

One can't normally get a 3-decoder XV (XtraView) setup onto that switch, but if the Exploras are the same model then yes you can. Both of the Exploras' tuner 3 would share the same User Band Index. The 5s would need to be set to use a Universal LNB, and would connect to one of those Universal output ports on the 5-2 ES (Explora Switch).
