justice movement was started by individuals, primarily people of color, who sought to address the inequity of environmental protection in their communities. The Civil Rights Movement of the 1960s sounded the alarm about the public health dangers for their families, their communities and themselves.

1970, the date of the first Earth Day celebration in the United States, is often cited as the start of the modern environmental movement. On that day, 20 million Americans filled parks and took to the streets in a nationwide teach-in and protest about critical environmental issues facing the United States and the world.
