This chapter examines how forced migration is intertwined with human rights and human rights law. More specifically, it considers the ways in which human rights law can assist and protect forced migrants who cross an international border but do not conform to the legal definition of 'refugee' as spelled out in the 1951 Refugee Convention or its regional counterparts.

Forced Migration Law and Policy : David Martin : 9780314285331

While "international law does not recognise a general category of forced or involuntary migrant," (Aleinikoff, 2003: 10) the international protection regime established by the 1951 Refugee Convention contains the most widely-recognised definition of a forced migrant in international law, and thus remains an important source of state obligations towards non-citizens claiming asylum on its ...
