**Muslim world | Wikipedia**

Geography is the study of the Earth's surface as the space within which the human population lives. The internal logic of this study has tended to split modern geography into two parts: physical and human. Such a division was inapplicable in the geography of the Middle Ages, the golden age of scientific inquiry in Islamic civilization (Tozer, 1964 ).

**8.2 Muhammad and Islam | World Regional Geography**

From the rocky valley of Makkah (Mecca) and the oases of the Arabian Hijaz and the lava fields of Madinah (Medina), where the first Muslim communities arose, to the steppes of Uzbekistan and the tropics of Singapore and the jungles of Africa, where Islam spread in the course of centuries, it is impossible to associate a single climate, terrain, or mode of life with Islam.
