In film, film grammar is defined as follows: A frame is a single still image. It is analogous to a letter. A shot is a single continuous recording made by a camera. It is analogous to a word. A scene is a series of related shots. It is analogous to a sentence. The study of transitions between scenes is described in film punctuation.

Film Terminology Lesson Plan Overview
Because students often passively consume film and other media, it is essential that you give students an opportunity to examine media critically as they explore these FUTURESTATES films. To become active, analytical viewers, students need to first learn the language of film.

[Grammar of the Film Language](#)

Grammar of the Film Language is a unique guide to the visual narrative techniques that form the “language” of filmmaking. This language is basic to the very positioning and moving of players and cameras, as well as the sequencing and pacing of images.

[Grammar of the film language \(Book, 1976\) \[WorldCat.org\]](#)

Actually, Film as a language has been refuted as a polemical associative reasoning. Film is not a language because language is made up of arbitrary signs (letters don't have an immediate correspondence to pictures), language has morphemes at its base-

Grammar of the Film Language by Daniel Arijon (1991) ...

The language of cinema starts with the shot. In film and video, a shot is a series of still image frames that runs for an uninterrupted period of time. Like a letter in written language, the shot is the smallest piece of visual language. However, a shot is closer to a word because it communicates much more than a single letter can.
