There exists a fine line of difference between law and ethics. The former, is the systematic set of universally accepted rules and regulation created by appropriate authority, i.e. government while the latter are the principles that guide a person or society, created on the basis of what is good or bad.

Given that my expectation and the fact was that there may well be similar legal application in US/CAN medical care delivery the book in review does not clearly demonstrate such. I feel that it is a more advance elaboration about the underlying nature of health care ethics than a basic discussion of common law underlying case law description.
