General Relativity - College of Charleston

At my uni, they use Hartle for the undergraduate GR course which sucks because like you I hate the "physics - first" approach taken in Hartle. The partial solutions in Foster was definitely a nice touch since no other GR book I know (excluding the Straumann one you recently showed me) actually has a solutions manual or even partial solutions ...

An introductory, undergraduate text in general relativity at the junior senior level. The development follows a physics first approach. The simplest physically relevant solutions of the Einstein equation are presented first, without derivation, to be explored and applied to realistic astrophysical situations like black holes, gravitational radiation, and the beginning of the universe.
