One of the factors that differentiate great leaders from the rest is their ability to cope with pressure, thrive under pressure, and lead people in high-pressure situations. Leaders who thrive under pressure use pressure as a catalyst to bring out the best in one's self and in others around them. Leaders who excel under pressure don't panic rather have control on one's self and have calming effect on others around them. They demonstrate confidence and boost confidence in others under ...

pressure of worldwide competition and the need to operate across the globe. At the micro level, there is pressure of individuals or departments to produce more with increasingly fewer resources.

## **Leading Under Pressure: From Surviving to Thriving Before, During, and After a Crisis**

How to Thrive Under Pressure. A sensible lifestyle is central to coping with pressure, so exercise regularly, drink alcohol moderately, maintain a healthy diet, and get plenty of sleep. These commonsense steps aren't enough on their own, however. Responding proactively to pressure can help you to manage its negative impact on you.
