SQL Management Studio for SQL Server - User's Manual

A Client Access License (CAL) is not a type of software, but rather, a license that grants Users or Devices access to SQL Server software. SQL CALs are a requirement only for the SQL license + CAL model, meaning that if you purchase SQL Server licenses per core (Standard Core / Enterprise Core) you will not need to purchase any additional licenses.

Microsoft SQL documentation - SQL Server | Microsoft Docs

User databases are created by users (Administrators, developers, and testers who have access to create databases). Following methods are used to create user database.
