heading must be in a type size larger than all other print size in the nutrition label and generally set the full width of the nutrition facts label (9 CFR 317.309(d) and 381.409(d)). Minimum type sizes of 6 point and 8 point are required for the other information in the nutrition label, and there are minimum spacing

New Dimensions In Nutrition By

Scientific Insights. New scientific insights can change the role of nutrition in public policy. A good example is what is happening in the National Cholesterol Education Program (Cleeman, 1986; Lenfant, 1986, 1987), based on more than half a century of research about the relationship between blood lipids and cardiovascular disease.

Nutrition and Public Health--New Dimensions - Frontiers in ...

The only benefit here is a small emphasis on eating more fruits and vegetables than meat and dairy. The little snippets of a guy stuffing hot dogs and French fries in his mouth detracts from this.
