I set Auto ISO to 1,600 max because the noise from the D80 at ISO 1,600 looks much better than blur. I set 1/15 because my Nikon 18-200mm gives great results down to 1/15. I adjust the lowest shutter speed setting in the AUTO ISO menu if I change conditions or lenses. Unlike film, my D80 looks great at high ISOs, so I use them anytime I need them.
