I installed NSW 2000 on my 8200 WXP. Worked fine. I then bot NSW 2002 XP version. I uninstalled (using the NSW uninstall), found out that it didn't uninstall the programs, and have removed everything that I can find from NSW 2000. There are Registry entries under documents and settings which end i...

I had used a prior version of Ghost and it was a little quirky (but it did work fine, with high quality cdr's) but 2003 seems to have fixed alot of problems and has some great new improvements. I started out simple and went for a straight image to CDR's.. while not the fastest method it worked without a hitch..
