~~en.onity~~

The HT24 lock is a stand alone magnetic stripe lock that runs on 4 AA alkaline batteries. The most important feature of the electronic lock is that it changes its code automatically for each new guest who checks into the room. Each new Guest Card used in a lock will automatically void the previous Guest Card.

OnPortal™ System. OnPortal is Onity's all-new lock management software: a scalable solution with roving check-in option and full access management. Built on research and feedback from front-desk agents on their routines and challenges, OnPortal is designed to deliver optimal efficiency, flexibility and guest satisfaction.

~~How to Reset a Hotel Electronic Lock to factory setting?~~

The Onity card key system has several codes that will indicate the status of the lock when a card is inserted and removed. There are only two lights on the lock— a red LED and a green LED. Singly or in combination the lights can help diagnose a lock or explain why a card is not accepted. Below is a guide to help you understand the light codes.
