Open Office spreadsheet — The Basics

The document object of a spreadsheet is based on the com.sun.star.sheet.SpreadsheetDocument service. Each of these documents may contain several spreadsheets. In this guide, a table-based document or spreadsheet document is the entire document, whereas a spreadsheet (or sheet for short) is a sheet (table) in the document.

Documentation — openoffice.org

Apache OpenOffice has several components (Writer, Calc, Impress, Draw, Base...) that share many characteristics on their user interfaces. For this reason the present guide will start to talk about Apache OpenOffice as a whole, then later provide "examples" for each component.
