The BDP-51FD shares many features of the Pioneer's successful step-up model, the Award-winning BDP-LX71. In fact the players are virtually identical apart from the plastic, gloss black fascia and standard buttons on the new model. Even in its cheaper suit, the '51FD still looks fairly handsome. You don't lose anything in terms of connectivity.

Pioneer BDP-51FD Specs - CNET

The Pioneer BDP-51FD is currently the only non-Elite Blu-ray player that Pioneer offers, but it is far from a budget model. Pioneer has a well deserved reputation for offering high quality DVD players in the past and is certainly trying to continue that tradition with their Blu-ray lineup, even if it means that their lowest end player is priced above that of other manufacturer's models.
