HONORS BIO DNA TEST REVIEW Ch 12

The most crucial of all maintenance systems of the cell's processes is protein synthesis. Without proteins, life would not exist as we know it. This unit provides that understanding of the basic cellular processes that unify all living organisms and provides a basis of understanding of molecular heredity.

RNA and Protein Synthesis

Acces PDF Protein Synthesis Test Review

Answers

tRNA molecules bind to DNA in order to link amino acids in the correct order. What happens to tRNA molecules after they add their amino acid to the growing protein chain? They are released from the mRNA to pick up the specific amino acid coded for by their anticodons. They degrade, and the RNA nucleotides are recycled.
