I work at a dodge dealership and I got a python 990 security system/remote start out of a used car, with all the wires, I would like to put it in my truck, but cannot find any installation guides! The website only has the owners guide, anybody have one or know where one is?

Thanks

How to Install Python 2.
Installing Python 2 is a snap, and unlike in years past, the installer will even set the path variable for you (something we'll be getting into a bit later). Download and run the installer, select "Install for all users," and then click "Next."
