Just as this tool wraps some of the services, you can also use many of the other WebCenter Content Servers integrations services. These are described in this API guide. If this is still not low-level enough to meet your requirements you may consider other native WebCenter Content Server capabilities, such as the Remote Intradoc Client (RIDC).

*Ridc Developer Guide*

The Remote Intradoc Client (RIDC) Administration Guide contains information to assist administrators responsible for configuring RIDC to communicate with Oracle Content Server. Audience This guide is intended for application developers and integrators. Related Documents For more information, see the following documents:
