The Stihl 090G is a gear drive based off the Contra G which its' direct drive counterpart is the 070 and before that the Contra platform. (Read the "1106 to 090 history in a nut shell" history section.) Running the 56mm piston (107cc) and fitted with the larger style 090 style 6 shoe clutch, this saw is an absolute beast with a long bar.

I can see them too on Tapatalk. I didn't even know there was a chain drive contra much less a 090 chain drive. I heard that the 090g started out with the 66mm end but it had cooling issues. That's why they put the 58mm top end on from the 070. All rumor I guess. I have an original 090g with the 58mm top end.

Stihl | 090G - thisoldchainsaw

I paid for an 090 Stihl chain saw, but got an 070 labeled as a 090. was very upset when I saw that the saw I bought was not what was advertised. it had a Stihl 090 label, but that is it. the saw had a 070 clutch and an 070 piston and cylinder. it was in good shape, but I wanted a 090, not an 070. cost me 900.00

Stihl 070-090 090G Chain Saws & Parts Workshop Service ... Believe it or not, Stihl still makes the 070 chainsaw. It is a Stihl ms 070. I just bought a new one on Ebay and I was skeptical before I bid so I did some checking. I found out that on Stihl's website under the country of Mexico, sure enough the Stihl catalog lists an ms 051, ms 070, and ms 076.
