The first records, of stretch limousines being built, date back to 1928 in Fort Smith, Arkansas by coachbuilder, Armbruster. The coachbuilder referred to their lengthened vehicles as 'extended-wheelbase multi-door auto-coaches', and they were primarily used to transport famous 'big-band' leaders and their bands and equipment.

Why are stretch limousines so long? What's the difference between the regular limo and the stretch limo? Well, first of all, a limo isn't a brand but a characteristic. It's a car that's long enough to have a private passenger area and sufficient separating room from the driver. Originally, the idea of the limousine was to give passengers privacy. The first official
