Tempstar 7000 Furnace Manual

~~Rheem Heat Pump Reviews and Prices 2019~~

In many parts of the United States, air conditioners aren't just a luxury, but a necessity during the summer months. Newer central A/C units are quieter, more powerful and more energy efficient than earlier models, and they can offer greater value by helping to lower energy bills each month.

The Heil HVH8 and HCH6 and the Tempstar TVH8 and TCH6 are the most efficient models, so they are best suited to climates with weather extremes in summer and winter. If your winters are very cold, combining one of these in a dual fuel split system with an efficient gas furnace would pay back the extra cost in 5-8 years and produce very low utility costs.
