Welcome to Chiropractic Whole Health | Easton PA ...

Chiropractic is a discipline that is concerned with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. Chiropractors have proposed, especially those in the field's early history, that such disorders affect general health via the nervous system. It is classified as a type of complementary and alternative medicine. The main chiropractic treatment technique involves manual therapy, especially manipulation of the spine, other joints, and soft tis

Performance Chiropractic - Chiropractor in Westminster, CO

Another factor behind why Chiropractic can help numerous health challenges has to do with it balancing out the bodies sympathetic/parasympathetic response of the nervous system. Most people live in a sympathetic “fight or flight” response and a chiropractic adjustment in the upper cervical region and sacral region can stimulate a parasympathetic response that reduces stress and allows certain organs to function to a higher degree including the digestive and endocrine systems.

Chronic health conditions are at an all-time high. Despite medical advancements, we are sicker than ever. Something needs to change. Come where you will be heard. Where you will be supported. Come where you will be guided back to your best health, The Wellness Way.

The Chiropractic Way

How Chiropractic Treatments Work: Most of the benefits associated with chiropractic care are due to patients receiving specific chiropractic adjustments. Chiropractic adjustments work by helping to place your body in the proper position that then allows the body to heal itself. Safety is paramount.
