Anyone here familiar with "Holodynamics" at all? I watched a video with Vernon Wolf here and it seemed pretty interesting.

Entertaining too as he is a pretty good story teller. I just wondered if anyone has looked into it and had anything to share about it.

A State of Being is a quality of your present experience. States of Being are qualities, not Goals. "Being happy" is not an achievement, it's a state. Breaking down States of Being into smaller parts helps decide what some imprecise states actually mean to you.
