*"The Politics of Experience" by R.D. Laing - Andrew Blackman*

The Politics of Experience defies easy categorization. Although it pretends to be a psychology treatise, I would place it among the greats of modern philosophy. This book transformed my way of thinking, acting, and observing in a way so profound that I cannot really relate to the person I was before I read it.

There are many varieties of experience of lack, or absence, and many subtle distinctions between the experience of negation and the negation of experience. Description : In 'The Politics of Experience' and the visionary 'Bird of Paradise', R.D. Laing shows how the straitjacket of conformity imposed on us all leads to intense feelings of alienation and a tragic waste of human potential. He throws into question the notion of normality, examines schizophrenia and psychotherapy, transcendence and 'us and them' thinking, and illustrates his ideas with a remarkable case history of a ten-day psychosis.

"The Politics of Experience" is an important document in the difficult realm of relational psychology. Laing understands intimately the nature of alienation - personal, social and professional - and offers an acute sense of the reality of others as beings in the world as intensely sentient as ourselves.

The Politics of Experience critiques the idea of normality in modern society, and argues that it is not people who are mad, but the world. It presents psychosis as "a psychedelic voyage of discovery in which the boundaries of perception were widened, and consciousness expanded". It was inspired by Laing's extensive experimentation with LSD.
