Sufficient
Definition of
Sufficient by

Merriam-Webster

In logic, necessity and sufficiency are terms used to describe a conditional or implicational relationship between statements. For example, in the conditional statement:

File Type PDF

This Is Not

Sufficient. An
"If P then Q", Q is

necessary for P,

because P cannot be true unless Q is true.

Similarly, "P is sufficient for Q"

because P being true always implies that Q is true, but P not being true does not always imply that Q is not true.
