The present series of essays, of which this is the first volume, attempts to describe what is going on in a particular speciality in such a way that it can be easily assimilated by workers in other branches of psychology. The essays do not provide comprehensive reviews of specialized topics: They are intended to convey new concepts and new approaches without covering in exhaustive detail all the relevant experimental work.

### ~~Example Psychology Essay—UK Essays | UKEssays~~

In the main body of the essay every paragraph should demonstrate both knowledge and critical evaluation. There should also be an appropriate balance between these two essay components. Try to aim for about a 60/40 split if possible. Most students make the mistake of writing too much knowledge and not enough evaluation (which is the difficult bit).
