Vortex Viper HS LR riflescopes incorporate Vortex's patented Radius Bar to visually assist in keeping track of turret rotations. The Radius Bar provides a quick visual reference that allows the shooter to confirm:

~~[The Vortex Riflescopes](#)~~

the manufacturer's instructions. The Vortex Viper PST riflescopes require 30 mm rings. Vortex Optics highly recommends using the Vortex Precision Matched 30 mm ring sets which may be purchased from an authorized Vortex rifle scope dealer. These rings will mount to any Picatinny spec base.

~~[Viper - Vortex Optics](#)~~

Viper riflescopes are available with either a 30 mm or 1-inch tube so select the ring size that matches the tube diameter of your rifle scope. Be sure to select a base and matching rings

appropriate for your rifle and mount according to the manufacturer's instructions. Note: Vortex Optics recommends not exceeding 18 in/lbs (inch/pounds)

~~Viper PST 6-24x50 - Vortex Optics~~

Vortex Viper. The Viper comes with a much lower profile and has only a 6 MOA dot option. The 6 MOA dot option makes it easier to acquire targets, and the sleeker design makes the weapon slightly more versatile in tight situations. Due to the Viper's sleek size, it can co-witness with suppressor height pistol sights.
