Family centered maternity care | definition of family...

In developing a family-centered maternity care program, staff at one urban hospital developed a set of implementation principles. These principles, plus anecdotal experiences illustrating them, are discussed. Patient and nurse satisfaction with the program are described, and a recommendation for FCCM implemmentation is offered.

Family-centered maternity care, the nursing administrator...

In patient- and family-centered care, patients and families define their "family" and determine how they will participate in care and decision-making. This perspective is based on the recognition that patients and families are essential allies for health care quality and safety—not only in direct care encounters but also in efforts to improve health care for all, including in research.

Family-Centered Maternity Care in the New Millennium

During a period of 3 months, nine educational sessions were scheduled and completed. An identical format was followed for each session. The four modules were (a) introduction to Family-Centered Nursing Care, (b) postpartum assessment/nursing care, (c) newborn assessment/nursing care, and (d) perinatal safety and risk management.

Family-centered care or Relationship-Centered Care is one of four approaches that provides an expanded view of how to work with children and families. Family-centered service is made up of a set of values, attitudes, and approaches to services for children with special needs and their families. In some family-centered settings such as the Hasbro Children's Partial Hospital Program, medical and ...  

Family Centered Maternity Care: Implementation Strategies ...  
Our colleague, Dr. Rebecca Williams, has set up a website exploring Family Centered Maternity Care (FCMC). Family Centered Maternity Care, as she explains it, is “a philosophical approach to prenatal care and delivery providing care to the pregnant woman in the context of her family. FCMC is prenatal care that considers, includes, and fosters the development of families.  

Family Centered Care | Signature Healthcare  
Celeste Phillips has been a proponent of family-centered maternity care and the single-room model of maternity care for her entire career. As a young nurse, she developed a strong philosophy that the childbearing experience belongs to the family, not the caregivers. To spread this philosophy to others and facilitate change, she has been a labor and delivery nurse, a nurse educator, an author ...
